We call special attention of farmers and stock men to the sale advertised in this issue by Mr. G. A. Giller. It will take place next Tuesday and a lot of desirable stock will be offered. See notice.

County Court was in session Wednesday.

"Grim and bear it"—it is the making of the pup.

The Model School will open on Monday of next week.

The election news would be real amusing if it were the reverse.

Three funerals took place at the Kirkville cemetery on Monday.

Remember the Jubilee Singers at the M. E. Church next Monday night.

Rev. Wm. Brown, of Brashear has our thanks for Journalistic favors.

Wednesday was a chilly day for Republicans. Still most of them were able to grin.

The people up in south Schuyler are beginning to appreciate a good family paper from Kirkville.

The GRAPHIC was compelled to add 75 copies to its issue this week to fill orders and new subscriptions.

New York, Ohio, Pennsylvania and even Kansas may stampede but "old Adair," keeps a level head.

We devote most of our inside space this week to election news. Next week Richard will be himself again.

Most of the Republicans went to bed Tuesday night and let the democrats do the sitting up to wait for dispatches.

The New Orleans Jubilee Singers, will sing at the M. E. Church next Monday evening. Tickets at Heiny & Hooper's.

Two hours and a quarter yet to wait, said a country man late Tuesday evening. We asked him if he was waiting for the train to go out. He said no—it was the mayor's proclamation.

W. G. Fischer, Prof. of music, Philadelphia, said of the New Orleans Jubilee Singers, I would rather listen to them than to any other company that has visited this city.

Our young friend "Billy" Bean is back again at his old place behind the counter at Grove's drug store. He spent his vacation among friends back in old Virginia and reports having a good time generally.

Election day passed off very quietly, we did not see a quarrel or a drunken man at any time during the day. The mayor's proclamation forbidding the sale of intoxicating liquors, seems to have been conscientiously observed, with the above result.

The New Orleans Jubilee Singers were educated at the New England Conservatory of music, Boston. Their entertainment next Monday will be both entertaining and instructive. Tickets at Heiny & Hooper's.

On Tuesday afternoon Mr. L. D. Noblett, one of our oldest citizens, a worthy, honest, and industrious man, died after several weeks illness. He was a prominent and consistent member of the Christian church, and was universally respected. His funeral took place on Wednesday.

There will be a social hop and oyster supper on Friday evening, Nov. 10th, at Baylor's Hall, given by the ladies of the Liberal Society. Proceeds for the benefit of the society. All are invited. Good music and a good time anticipated. Admittance to hall, 10 cents.

New Orleans Jubilee Singers.

They are the finest singers I have ever seen.

J. P. BLANTON,
Pres. State Normal.

We specially request our local correspondents at various points in the county to send their items in next week promptly. Give us full reports of local items and occurrences as possible and send in early. We want to issue a "boss" edition next week, as a sample of what we expect to make the GRAPHIC for the coming year, both as a literary and a family newspaper.

Of late years we have become somewhat accustomed to "jubilee" singers and other troupes of colored vocalists from the South, but the University singers of New Orleans, are the very best that we have heard. Their time, expression and harmony are all good while the weird and peculiar pathos characteristic of the Freedmen finds full expression in their voices.—Saratogian Daily, August 15, 1881.

A large number of extra copies of our next issue will be printed as sample numbers and to be used in securing new subscribers. The people of all parties all over the county are subscribing for it liberally on account of its large amount and variety of reading matter. In fact it is becoming a regular "boom" in this respect. Advertisers, ever on the alert for means to reach the masses, should bear this fact in mind.

The campaign is over and for once everybody seems to feel, if not exactly happy at least pleased with the way it was conducted. "Mud slinging" and bitter abuse was conspicuously absent. It is better so. The GRAPHIC has aimed specially to avoid anything like coarseness or unfairness in its treatment of all parties and has the proud consciousness of having more friends than ever. There is no sense in friends and neighbors falling out and abusing each other and raising the "very old Harry" generally, because Jones and Smith happen to be rival candidates for constable or dog pelter, and so on all the way down to congressman. It isn't necessary and it doesn't pay. There is a great and comforting satisfaction, in knowing, now that it's all over, that next to nobody made a consummate fool of themselves in trying to save the county.

Institute.

A Teachers' Institute will be held at Sullette school house in Polk township. Adair county, on the 25th of Nov., 1882.

Not only is it the duty of every teacher in the township to attend but the patrons of the district are earnestly solicited to be present, and bring their baskets with them.

On account of the rain, there was no institute in Benton township at the appointed time. But the following program has been prepared for Saturday, Nov. 18, 1882, to be held in the Washington School building in Kirkville.

PROGRAM TO A. M.

1. Miscellaneous business. 2. Primary Arithmetic—Miss Mary Spencer; 3. Geography—N. M. Boyd; 4. General discussion; 5. Noon; 6. Civil Gov.—Powers of Congress; 7. Declaration—A. C. Willis; 8. Recesse; 9. Address—Prof. J. P. Blanton; 10. Query Box. A. C. Willis, Vice President.

AMY MILLIKEN,

Sad and Fatal Accident.

Saturday afternoon a sad and fatal accident occurred on the Chariton river near Mr. Geo. Cain's. Samuel T. Harris, aged 14, a son of Lt. T. C. Harris of this city, in company with another boy of about the same age named Marion Lowther, had gone on a hunting expedition. The boys crossed the river in a skiff and in jumping from the skiff to a ferryboat that was laying on this side both barrels of young Harris' gun were discharged the shots taking effect in his left shoulder and some shots penetrating his left lung. He was taken to the residence of Mr. Cain and his mother and brother-in-law Dr. Burton, were sent for. After lingering several hours he quietly passed away from the effects of internal hemorrhage. His funeral which took place on Monday was attended by a large crowd of his former school mates, and the public generally. The bereaved parents and family have the universal sympathy of community in this sudden and awful bereavement.

Church Dedication.

The new M. E. Church, at Bullion was dedicated on Sunday last by Eld. J. J. Bentley. This is one of the nearest country churches in Adair county and its prompt and rapid erection speaks well for the enterprise and liberality of the citizens of that vicinity. We learn that special credit is due, Mr. Geo. L. Coffin, Mr. Levi Spangler, and R. B. Frisbee for their energetic and energetic work in the matter. When the reports were made of the receipts and expenditure, the building committee asked for \$240 to discharge the remaining indebtedness. This amount was at once promptly pledged, whereupon Rev. J. J. Bentley, P. E., proceeded to close the exercises with a formal dedication of the structure. The citizens of Bullion and that vicinity have good cause for pride in their new church building.

Jubilee Singers.

We learn that the regular University Jubilee Singers, who have made a reputation both in this country and Europe, by their songs and old time plantation music, wielded with such efficiency in the cause of education for the colored race, have been engaged to sing here on Monday night. By some mischance in their arrangements, the concert will take place in the M. E. church instead of the hall as first intended. The proceeds will go toward paying out the remaining small indebtedness of the M. E. Church in its recent extensive repairs and improvements. Lovers of music and all disposed to patronize a good entertainment and help along a good cause should not fail to attend.

Report of Kirkville Schools.

Report for the month ending, Nov. 1882. Number enrolled 691, average daily attendance 603. Cases of absence 508, cases of tardiness 201. We hope that the patrons will examine this report and remember that absence and tardiness not only prevent the guilty ones from learning, but interfere with the whole school. If you want your children to learn, send them regularly and in time; if you are not particular, you had better keep them at home.

Additional Mail.

Since the new morning train has been put on between this place and St. Louis, our post master has received notice that a closed pouch will be sent and received to and from this point. This will give us mail twice a day and much of it twelve hours sooner than heretofore. It is a great improvement and one which the business portion will appreciate specially.

OVER THE RIVER.

Ringo's Point Ramblings—Items of Interest, Personal Points etc.

Ringo's Point, Mo., Nov. 3.—DEAR GRAPHIC—Press of business has kept me from writing sooner, but from this on I will try and keep you posted in the news from this point. This has been a very busy fall among the farmers of this section.

There has been more done in the way of good improvements than for any two years previous. The citizens generally seem to be making better improvements as though they intended to stay and make their homes as pleasant as possible.

There has been considerable sickness since I last wrote you and our Dr. I. B. Weaver has been kept on the move.

Mrs. W. H. Johnson has been very sick but is able to about again.

Mr. W. W. McGrew has been on the sick list for the last week but is better.

Harden Bozarth cut his foot some time ago and is yet unable to walk.

Miss Nellie McGrew returned to-day from Macon county where she has been on a visit for three or four weeks. She was accompanied by some of her friends from there, names to me unknown.

Mr. John Farrier and family returned from Nebraska this week. They will make this their home in the future. He says crops in Nebraska are good, wages high and work plenty, and everything on the boom.

H. Snyder and Lou Taylor were to St. Louis last week with cattle. Hiram will go again after election. He says he wants to start about the time the democratic candidates start up salt-river.

There has been some kind of a disease among the horses here that is new to the farmer and has been very fatal. Wm. Daniels lost one and Mr. Carnegie one and had another one sick at last accounts.

Judge Sands was out here the fore-part of this week looking after the interests of the GRAPHIC. The GRAPHIC is having a large circulation here and all seem to think it the paper.

There is quite an excitement here over the question of restraining hogs from running at large, from present appearances, we think it will carry. Mr. Daniel Taylor, of Macon county, was here this week visiting his father D. I. Taylor.

W. H. Swisher is building an addition to his house and otherwise improving.

W. C. Hall has put a new coat of weatherboarding on his house and is getting it in good shape for the coming winter.

Sam Snyder has put a new roof on his house and whitewashed it on the outside which gives a very pleasant and homelike appearance.

Our boys that went to St. Louis to the fair got back safe and sound and express themselves as being well pleased with the trip.

Now Mr. GRAPHIC we hate so do it but we feel just like we would have to say Hurry for Glover! Hoping that all our candidates may be elected by good round majorities on next Tuesday. I remain your as ever, for fun.

Missouri Patents.

Mr. H. N. Jenkins, solicitor of patents, Washington, D. C., officially reports to the GRAPHIC the following complete list of patents granted Missouri inventor, for the week ending Oct. 31, 1882:

Leany Recht, Platt City, car coupling; J. B. Evans, Junction City, band-cutter and feeder for thrashing machine; L. J. Hinkle, Piedmont, car-coupling; J. W. Johnson, Lathrop, harness pad press; E. B. Sankey, Salem, draw bar for railway-cars; W. N. Graves, St. Louis, brick-kiln; J. W. Sarsa, and J. T. Dowdall, same place cotton cultivator; A. H. Vordek, same place trade-mark for medical compounds.

Lecture at the Normal.

On Saturday evening Nov. 18, 1882, Col. L. F. Copeland of Indiana, will give one of his interesting lectures at the Normal.

This is the first of a series of lectures to be given during the winter, for the benefit of the Normal library. The citizens of Kirkville, and students knowing the great need of a move in this direction, will of course patronize him. Col. Copeland comes well recommended from various places in the United States, and deserves a full house.

S. S. Convention.

To-day the Adair county Sunday School convention meets at the Baptist Church in this city. The session will continue two days.

All friends of Sunday school work, especially Superintendents and teachers are cordially invited to be present and to participate in the exercises.

We understand that entertainment has been provided, and visitors from a distance should apply to the pastors of the different churches for assignment.
